Re: *WorldCom UNE-P Ex Parte, CC Docket No. 01-338*

Dear Ms. Dortch:

Yesterday, on behalf of WorldCom, Paul Bobeczko, Jeff Sporn and Andrew Graves of MCI's Marketing division, and Marc Goldman, Chris Frentrup and the undersigned met with Claudia Pabo, Daniel Shiman, Shanti Gupta, Rob Tanner, Tom Navin, Jeremy Miller, Julie Veach, Gina Spade, Mike Engel, Ben Childers, Jon Reel and Elizabeth Yockus to discuss UNE-P.

During the meeting, we discussed the attached presentation. In addition, Commission Staff asked us whether there would be any effect on the results of the Bryant study if greater switching minutes of use were assumed for the CLEC compared to the ILEC. Subsequent to the meeting, we reviewed the model and determined that there is no effect on the results if higher CLEC minutes of use are assumed. This is because switching costs are driven by lines, not minutes. In addition, the model includes adequate transport capacity to cover the hypothetical additional CLEC minutes of use.

Please do not hesitate to contact me if you have any questions.

Sincerely,

/s/

Kimberly Scardino
Senior Counsel
WorldCom
